

## Answer calls remotely, at the touch of a button.

Now you can answer and end calls, up to 300 feet from your phone. The ringtone in your VXi V150 or V100 headset lets you know when you have a call, and you just touch the headset's answer button to answer. To end the call, just touch the button again. The VEHS does all of the work.

### Benefits

- Answer and end calls remotely from your headset, up to 300 feet from your phone.
- Save desk space (installs directly under the base of VXi's V150 wireless solution).
- Works automatically, and is easy to set up.
- Sleek and attractive, with no cable clutter.
- Available for a variety of phone systems from Avaya®, Cisco®, Polycom® and Snom™.

Pick up and hang up from  
anywhere in your office,  
with the VEHS.

## Product Highlights

- Does not interfere with normal handset or phone operation
- Attaches directly to the base of the VXi V150, saving space
- Clearly labeled jacks and cables, for quick and easy install
- Also works with the VXi V100
- One-year warranty
